图书介绍

The perfect starting point for your journey into Scala and functional programming.

In Get Programming in Scala you will learn:

- Object-oriented principles in Scala
- Express program designs in functions
- Use types to enforce program requirements
- Use abstractions to avoid code duplication
- Write meaningful tests and recognize code smells

Scala is a multi-style programming language for the JVM that supports both object-oriented and functional programming. Master Scala, and you'll be well-equipped to match your programming approach to the type of problem you're dealing with. Packed with examples and exercises, Get Programming with Scala is the perfect starting point for developers with some OO knowledge who want to learn Scala and pick up a few FP skills along the way.

about the technology

Scala developers are in high demand. This flexible language blends object-oriented and functional programming styles so you can write flexible, easy-to-maintain code. Because Scala runs on the JVM, your programs can interact seamlessly with Java libraries and tools. If you're comfortable writing Java, this easy-to-read book will get you programming with Scala fast.

about the book

Get Programming with Scala is a fast-paced introduction to the Scala language, covering both Scala 2 and Scala 3. You'll learn through lessons, quizzes, and hands-on projects that bring your new skills to life. Clear explanations make Scala's features and abstractions easy to understand. As you go, you'll learn to write familiar object-oriented code in Scala and also discover the possibilities of functional programming.

what's inside

- Apply object-oriented principles in Scala
- Learn the core concepts of functional programming
- Use types to enforce program requirements
- Use abstractions to avoid code duplication
- Write meaningful tests and recognize code smells

about the reader

For developers who know an OOP language like Java, Python, or C#. No experience with Scala or functional programming required.

about the author

Daniela Sfregola is a Senior Software Engineer and a Scala user since 2013. She is an active contributor to the Scala Community, a public speaker at Scala conferences and meetups, and a maintainer of open-source projects.
