

SPARK SUMMIT 2015会议PPT百度网盘免费下载(3)

SPARK SUMMIT 2015会议于美国时间2015年06月15日到2015年06月17日在San Francisco (旧金山) 进行, 目前PPT已经全部公布了, 不过很遗憾的是这个网站被墙了, 无法直接访问, 本博客将这些PPT全部整理免费下载。由于源网站限制, 一天只能只能下载20个PPT, 所以我只能一天分享20篇。如果想获取全部的PPT, 请关注本博客。

会议主旨

The Spark Summit is an event to bring the Apache Spark community together. Spark Summit 2015 ran from on Monday, June 15 through Wednesday, June 17, 2015 at The Hilton Union Square in San Francisco. Attendees heard from leading production users of Spark, SparkSQL, Spark Streaming and related projects; they were able to find out where project development is headed; and learn how to use the Spark stack in a variety of applications.

本次可下载的PPT标题

- 1、How Spark Fits into Baidu's Scale
- 2、Accelerating Apache Spark-based Analytics on Intel Architecture
- 3、Better Visibility into Spark Execution for Faster Application Development
- 4、A Data Frame Abstraction Layer for SparkR
- 5、Recipes for Running Spark Streaming Applications in Production
- 6、Building a Location Based Social Graph in Spark at InMobi
- 7、Using Data Science to Transform OpenTable Into Your Local Dining Expert
- 8、Spark in the Wild: An In-Depth Analysis of 50+ Production Deployments

- 9、Building the Autodesk Design Graph
- 10、Visualizing AutoTrader Traffic in Near Real-Time with Spark Streaming
- 11、Taming GC Pauses for Humongous Java Heaps in Spark Graph Computing
- 12、A More Scalable Way of Making Recommendations with MLlib
- 13、Some Important Streaming Algorithms You Should Know About
- 14、Building Large Scale Machine Learning Applications with Pipelines
- 15、Interactive Graph Analytics with Spark
- 16、Real Time Fuzzy Matching with Spark and Elastic Search
- 17、Spark as a Platform to Support Multi-Tenancy and Many Kinds of Data Applications
- 18、iRIS: A Large-Scale Food and Recipe Recommendation System Using Spark
- 19、Regulatory Reporting of Asset Trading Using Apache Spark
- 20、Tagging and Processing Data in Real-Time Using Spark Streaming
