

[\[电子书\]Mastering Elasticsearch 5.x - Third Edition PDF下载](#)

本书将为您简要介绍ElasticSearch的基础知识以及Elasticsearch 5的新功能。通过本书将学习到Elasticsearch的基本功能和高级功能，例如查询，索引，搜索和修改数据。本书还介绍了一些高级知识，包括聚合，索引控制，分片，复制和聚类。中间部分介绍了ElasticSearch集群相关的知识，包括备份、监控、恢复等。读完本书，您将掌握Elasticsearch所需的所有知识，并将其运用于实际工作中。本文提供本书的pdf、mobi、azw3以及epub格式的下载。

《Mastering Elasticsearch 5.x - Third Edition》由Bharvi Dixit所著，全书共326页；Packt Publishing出版社于2017年02月出版。通过本书你将学习到以下的知识：

- 1、Understand Apache Lucene and Elasticsearch 5's design and architecture
- 2、Use and configure the new and improved default text scoring mechanism in Apache Lucene 6
- 3、Know how to overcome the pitfalls while handling relational data in Elasticsearch
- 4、Learn about choosing the right queries according to the use cases and master the scripting module including new default scripting language, painlessly
- 5、Explore the right way of scaling production clusters to improve the performance of Elasticsearch
- 6、Master the searching, indexing, and aggregation features in Elasticsearch
- 7、Develop your own Elasticsearch plugins to extend the functionalities of Elasticsearch

本书的章节

- 1 Revisiting Elasticsearch and the Changes
- 2 The Improved Query DSL
- 3 Beyond Full Text Search
- 4 Data Modeling and Analytics
- 5 Improving the User Search Experience
- 6 The Index Distribution Architecture
- 7 Low-Level Index Control
- 8 Elasticsearch Administration
- 9 Data Transformation and Federated Search
- 10 Improving Performance
- 11 Developing Elasticsearch Plugins
- 12 Introducing Elastic Stack 5.0
